

WE ARE NAFTEX INTERNATIONAL

A company dedicated to provide electrical materials of high, medium and low voltage, as well as design and construction, both in the area of transmission and distribution. We started our operations in Miami, Florida in 1992 and early 1996 we were established in the Dominican Republic, excelling in the area of provision of electrical equipment, specifically electric meters.

Our difference is the satisfaction of our customers.

BENEFITS

- A great variety of electrical equipments.
- Design and construction in the areas of transmission and distribution.
- Innovation
- Specialized Technical Support
- Consulting and Advice

OUR PROJECTS

Since 2008 Naftex has been focused on developing projects able to expand their area of action, developing a reengineering process on metering.

The global technology boom and the rapid development of ICT has enabled the ability to add remote communication for electricity meters, known as "Telemetry".

With the use of these new resources, the company has established itself as a pioneer in this market, managing projects in Dominica Republic, Haiti, Panama and Bonaire.

OUR CUSTOMERS

OUR PRODUCTS

Transmission and Electrical Substations

- Transmission tower
- Insulators
- Electrical conductors
- Substations
- CT and PT of High Voltage
- Power transformers

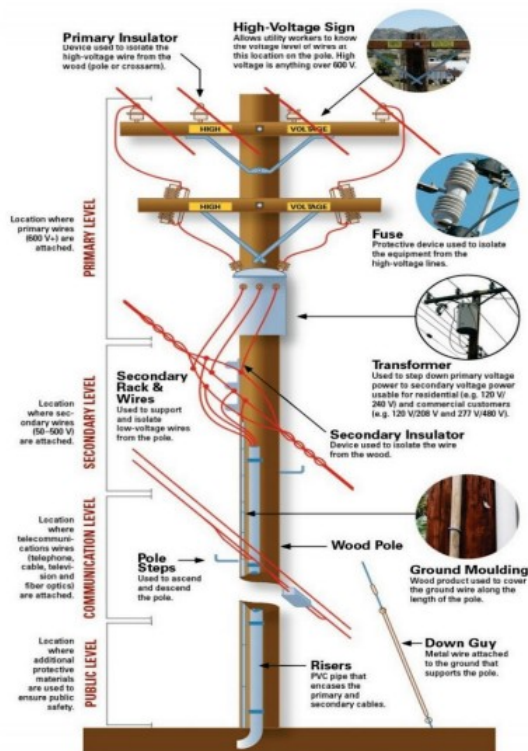

Metering and Telemetry

- Electrical meters ANSI/IEC
- Prepaid Metering System /AMR
- Metering System AMI/AMR

Distribution

- Electrical conductors
- Transformers
- Adapters
- Poles
- Insulators

CUSTOMER SERVICE

- Specialized professional team
- Pilot projects with an option to accommodate them in our own servers
- Online support 24 hours
- Assisted support (beginning at the installation of the equipments)
- Trainings
- Sales support and overall management of the service

We also provide **electrical material** to private enterprises on the local market.
